Men haqimda

I am a front-end developer with a passion for creating exceptional web experiences. I have a certification in Java from PDP Academy, where I maintained a GPA of 3.5 out of 5. Throughout my education, I have honed my skills in HTML, CSS, JavaScript, Sass, and Bootstrap.

In addition to my academic achievements, I have worked on several impressive projects such as Namanganliklar 24, CoffeeRoasters, Pricing Component, Bookmark, Shortly and Apple Watch. These projects showcase my ability to create visually appealing and user-friendly websites.

I am fluent in English (B1 level), proficient in Russian (A2 level), and also speak Uzbek. My diverse language skills allow me to effectively communicate with clients from different backgrounds.

With strong technical skills and a creative mindset, I am ready to contribute to the success of any front-end development team. Let's collaborate on building innovative web solutions together!
